

Senior Fisheries Biologist

PBS&J

Portland, Oregon

Closes: July 30, 2010

Salary: Depends on experience

Contact: Demian Ebert, 503-222-7275, daebert@pbsj.ocm

**Position Description/Duties:**

- Develops and evaluates plans and criteria in terms of quality assurance or environmental impact.
- Analyzes technical problems.
- Devises new approaches and alternative solutions.
- Conducts or analyzes scientific studies.
- Assembles technical data and writes reports and permit applications.
- Monitors, coordinates and/or provides direction on quality control efforts within area of responsibility.
- May manage projects.
- Performs such other duties as the supervisor may from time to time deem necessary.

**EDUCATION AND EXPERIENCE**

B.S./B.A. or M.S. in a Biology, Fisheries, Zoology or other closely related discipline; M.S. or graduate level coursework preferred. Minimum experience seven years since Bachelor's degree, or six years' experience with Master's degree.

**SPECIAL SKILLS**

Proven analytical skills, technical writing, computer, and communication skills. Experience in northwest fisheries issues and Endangered Species Act consultations is required. Ability to work somewhat independently and interact with clients is required. Experience with complex water projects, dam removal, and facilitation is desired. Travel required.
